Description

[Click Here to View Pedigree & EPD's](#)

This one leaves us somewhat speechless! We love how elegant this female is. She draws your attention as she is so rugged in her makeup. 416 is also deep-bodied, long, and level through her head and neck and still ties it all together in a ladylike way. She is sired by none other than the famous Mr. US Evolution 409/5. He is a bull known for his performance, size, power, bone and is sired by Mr. JRS Polled Dexter, a son of the National Reserve Junior Champion, JME US Lexor Manso 71 (P). The dam to 416 is Miss Kallion Patches 925, sired by Mr. Kallion 1352, one of the hottest sires in the breed, ranking #1 for docility! To top this great female off, she ranks in the top 30% of the breed for yield grade, milk, and the top 15% for marbling. If you are looking for a great female who can move your program forward in the right direction, bid with confidence on 416, as she will produce high-quality calves and draw your attention to your donor pen!
