Description

[Click Here to View Pedigree & EPD's](#)

These next two females are very intriguing to us due to the genetic package they carry along with the style and performance presented. Miss J&M Angela 274/8 is a young female you love for her "mama cow" look. When you study her teat placement, you realize that each teat is spaced just correctly as well as the size. She is sired by the widely used sire and the growthy, eye-appealing bull Mr. Karu Manso 800-1. You know the value of the crossing of (+)JDH Dakota Manso 599 with the JDH Lady Rem S. Manso cow, making the original +JDH Mr. Karu Manso 800, which also makes 800-1 the clone. On the dam's side of 274/8, she comes from a Reserve International Champion daughter, +Mr. V8 777/4 "Powerstroke" and a register of renowned mama from the Jd Hudgins Ranch +JDH Audra Manso. Folks, this is one of the most proven matings in the breed, crossing together the influence of (+)JDH Dakota Manso 599 and the lineage of (+)JDH Madison De Manso. Only in a sale like this would you have the opportunity to purchase elite genetics from the famed Jd. Hudgins herd. To top this offering off,

274/8 ranks in the top 15% of the breed for REA, 15% for yearling weight, 10% for weaning weight, 10% for milk, and 3% for marbling, making this incredible female even more valuable to commercial cattlemen. If you want to purchase elite genetics and proven economic traits, take advantage of Miss J&M Angela 274/8!!

Special Notes – Sells bred 60 days to Mr. V8 347/8.

Quantity: 1
