**Brand/Tattoo:** N/A

All progressive polled brahman breeders need to be studying this mating of embryos! The sire of this package is +JME Mr. Suva Crat 225 (P), who is BLACK, POLLED, POPULAR, and is a REGISTER OF RENOWNED sire. It should be recognized that this sire is an outcross to many of today's famous bloodlines. Due to 225's success in siring natural-born babies and with limited progeny being shown, he reached the ABBA Register of Renown, making him one of the few polled sires to accomplish this prize. The dam to this package is ISB Ms. Lova Noconi  $\frac{3}{5}$  (P), who is also the dam to the high-selling herd bull in the "Road to Success" Replacement Brahman Online Sale, and out of the 2800 pound ABBA Register of Renown bull, +MCC Mr. Puerto Rico 27 (P). As Mr. Larry and I talked, there is no telling what this mating could accomplish for any program, and genetics like this that are proven to work don't come around often. However, if you're looking to produce BLACK and POLLED cattle, this package is the only way to go. Don't miss out on this opportunity from Lost Acres Ranch!!

**Special Notes: Selling three conventional embryos with a guarantee of one pregnancy. If no pregnancy is achieved with the first three embryos, one additional embryo will be given.**

**Quantity: 3**
