If you are in the market for a RARE opportunity, don't miss out on this IVF Aspiration from Ms. Diamond D Manso 1216 (P)! Everyone loves this female for her unique BLACK color, but we also think a lot of the phenotype this female carries. If you study the way she walks, you instantly notice she is a top-notch donor due to the way she moves with ease. Seeing her from the side, she is super deep-bodied and extra extended out of her front  $\frac{1}{3}$ . 1216 is sired by BCF Polled REM 012 (P), who is a son out of LMC JT Polled Remmy 437 (P) and out of a very productive BAR W Dakota Manso 335 daughter, BCF Ms. Lady Manso 1243. Not only does 1216 have outstanding dark pigment and an outstanding pedigree, but she also ranks in the top  $\frac{1}{2}$  of the breed for BW, WW, YW, milk, and REA. It is to note that this outstanding female flushed 90 oocytes on her first aspiration. So, if you want to invest in genetics on a POLLED BLACK female, this is the one to do it with! Don't miss this opportunity, Ms. Diamond D Manso 1216 (P)!

**Special Notes: Selling (1) IVF aspiration guaranteeing five transferable/freezable embryos produced from conventional or seller approved sexed/reverse sorted semen, with the work to be done at a facility approved by the seller. The buyer will be responsible for all costs associated with IVF procedures, including travel/hauling to the IVF facility. No guarantee if semen is sexed or reverse sorted unless you get the seller's approval before use.**

**Quantity: 1**
