---

Great first-time consignors Marek Barefoot Brahman has brought us some outstanding show females that will impact any progressive herd. As Mr. Dennis and I were talking, he has only sold a few females in the country, with most of his reds going to other countries. You will agree that these red females like this don't come around very often. Miss Marek Barefoot 61/2 is a super soggy red female that we can't help but like. She stands on a super huge foot and bone, complimenting this with a ton of capacity in her rib cage. Not only does this female come with a stunning phenotype, but she also

comes with a pedigree that everyone should recognize. 61/2 is sired by, as everyone knows, Mr. CBR 667/8 "Cutter," who has been a definite favorite in the show ring over the last couple of years, earning the titles of 2019 National Champion and 2020 International Champion Bull. His solid build and notable pedigree will add defined excellence to CR Genetics's feminine style and balance. The dam to 61/2 is CT Baley Rhineaux, a combination of +Mr. V8 380/6 and notably the most prestigious cow in the red brahman world +CT Lady Rhineaux Ray 8/9. Genetics like this only come around sometimes; when they do, you want to ensure you are the first to take advantage of it. Take advantage of a great show female, Miss Marek Barefoot 61/2, from our great friends and first-time consignors, Marek Barefoot Brahman!
