Name: AB Lana 73- Open Heifer

Sire: AB Polled Tanner 46 (P)

Dam: RLB Miss 311

D.O.B.: 09/15/2023

Registration #: 1072303

Brand/Tattoo: 73

Consignor: Anderson Brahman

AB Lana 73 is a super cool, smooth female that every breeder in the brahman breed should pay attention to. You love her for the extra sogginess and the added body length. When you study her on the move, you also find that she hits her tracks every time, being flexible off both ends of her skeleton. Lana is sired by AB Polled Tanner 46 (P), who is sired by LMC Polled Ely 69/6 (PP), who is a LMC Polled Future 17/1 (P) son. On the bottom side, the mother to 46 is AB Miss Molly, the combination of the register of renowned herd sire +JDH Mr. Fusig Manso and RLB Miss 311. The dam to Lana is a daughter of Mr. V8 659/6, RLB Miss 311, a granddaughter of +JDH Mr. Brandon Manso on the bottom side. As you study Lana's EPDs, she ranks in the top 1% of the breed for

maternal calving ease and 25% for birth weight. Ladies and gentlemen, we sometimes get caught up in the show world, but this elegant female portrays what a “mama cow” should look like in the pasture. Don’t miss out on AB Lana 73 from Anderson Brahmans!
